

A modern living room with large black-framed windows and a white sofa. The room features a white sofa on the left, a coffee table with a vase of white flowers in the center, and a large potted plant on the right. The floor is light wood, and the ceiling has recessed lighting. The windows offer a view of a garden with trees and a fence.

Ironclad Doors and Windows is a leader in the iron door industry and has been crafting artisan doors, windows, and fireplaces since 2008.

Ironclad Doors and Windows is a family-owned and operated business, located in the heart of the Dallas / Fort Worth Metroplex, as well as in the West Texas / Panhandle region. With over twelve years in the industry, we have extensive professional experience in both residential and commercial projects.

Choose from any of our designs or let us create a custom design just for you. At Ironclad Doors and Windows we know how much an elegant custom iron door, fireplace, and windows can enhance the beauty of your home or business, without compromising functionality. Each of our designs is developed using advanced drafting software and is expertly hand-crafted by skilled artisans.

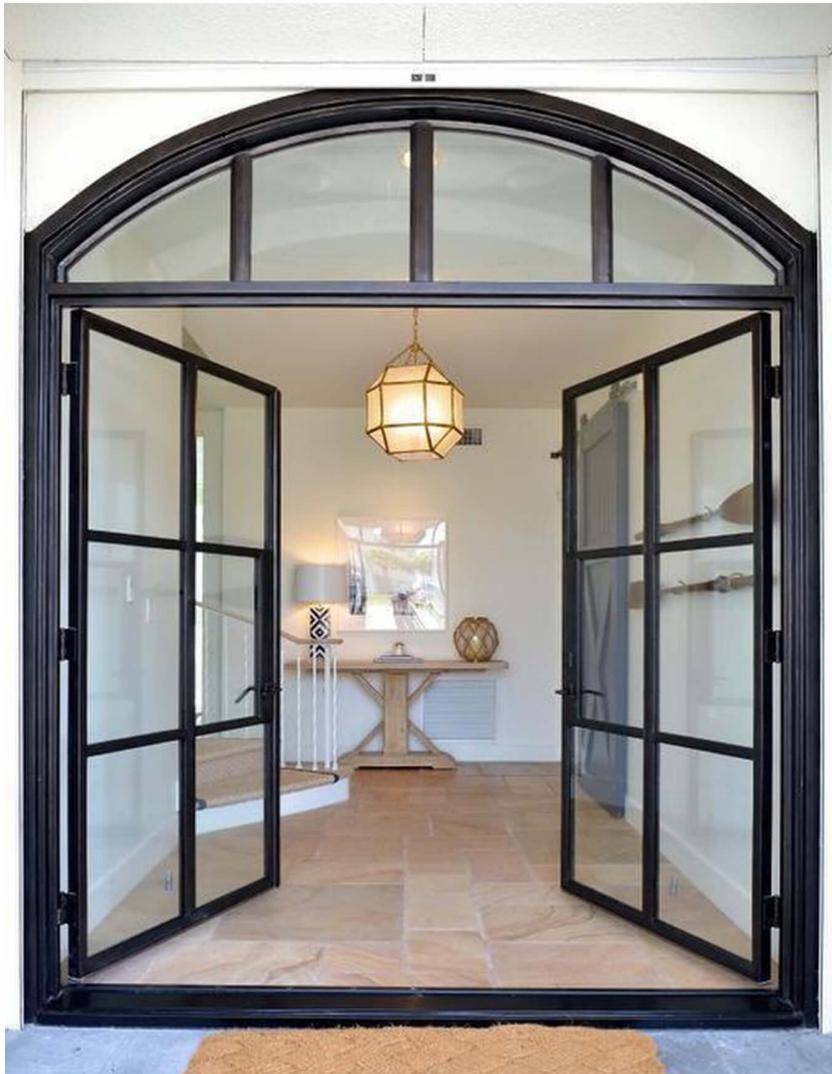

Ironclad Doors and Windows provides the highest quality doors, fireplaces, and windows at the absolute best price while combining both professional and reliable services with a superior product. We guarantee that you will receive personalized attention from project inception to project completion. This is our Ironclad promise to you.

## ENGINEERING ENVELOPES for ENERGY SAVINGS

Many city building departments have recently developed green building codes or are currently in the process of doing so. With this evolution, building envelope engineering has assumed greater importance to both new construction and renovations.

The commercial-grade Thermal Break Steel Series is perfect as part of an energy-efficient building envelope system that helps builders meet strict energy guidelines while passing along financial gains to the ultimate end-user.
